SUMMARY

Software developer with 2 years of experience in React, JavaScript, java, Node.js, Spring Boot. Skilled in MongoDB, MySQL, Git, GitHub, and JIRA. Proficient in building responsive, cross-browser-compatible applications. Detail-oriented, self-motivated, and committed to continuous learning and adapting to new technologies.

WORK EXPERIENCE

MIND SPARK TECHNOLOGY

Pune, MH

Software Developer: January 2023 – Present

- Optimized Software development workflows, enhancing productivity by 50% through improved processes and system optimizations.
- Collaborated with cross-functional teams to develop and integrate core UI features for web applications, ensuring seamless user experience and performance.

PROJECTS

Job Seeker website

Sept-2023-April-2024

- Developed a job seeker platform using **React**, including a registration system and an “Apply for a Job” button, improving job application submissions by 35%.
- Created user profile pages, enabling job seekers to view application history and hide contact information, enhancing privacy management by 40%.
- Implemented features to add multiple qualifications and experiences, allowing users to build comprehensive profiles, and increasing user engagement by 30%.
- Collaborated with a team to ensure a responsive and intuitive user experience, resulting in a 25% improvement in overall site usability.

Hospital Management System

June2024- Present

- Developed and modernized a scalable healthcare platform using **Java, Spring Boot, and React**, reducing page load times by 40%.
- Deployed a microservices architecture on **Kubernetes** with Spring Cloud Gateway and Netflix Eureka, improving service discovery and routing efficiency by 30%.
- Implemented OAuth 2.0 and Spring Security with Keycloak, achieving secure, compliant user authentication and authorization.
- Optimized RESTful APIs, boosting system performance and scalability to support a 30% increase in user traffic.
- Migrated to a Kubernetes production cluster, leveraging Istio for advanced traffic management, with CI/CD pipelines using Jenkins and ArgoCD, reducing deployment times by 60%

Technical Skills:

- Frontend Languages: React 17, HTML 5, CSS 3, Bootstrap5, Tailwind CSS
- Backend Languages: JavaScript (Node.JS), Java, SpringBoot
- Backend Frameworks/Libraries: Express JS
- Development tools: Visual Studio Code, Sublime, Notepad++, IntelliJ
- Git IDE: GitHub Desktop, VS Code Git
- Database: MongoDB, MySQL

EDUCATION

UNIVERSITY OF PUNE

Bachelor of Engineering

GPA: 7.8

Pune, MH

Jun 2018 - May 2023
